

## Cleanroom Paper

Cleanroom Paper is manufactured with contamination control characteristics and recommended for use in all controlled environments. The Antistatic properties in the Paper reduce attraction of airborne particles.

- Excellent retention of inks and toners
- Low particles and ion release
- Sterilizable
- High Opacity rating
- Chemical and moisture resistant
- Available Colors: White, Green, Orange, Violet, Pink, Yellow & Sky Blue
- Standard Packaging: 250 sheets per packet, 10 packets per case

### Specification

Performance Characteristics	Results
Size (mm)	297±0.5 (T.D) x 210±0.5 (M.D)
Weight (g/m <sup>2</sup> )	80±3
Thickness (µm)	92±4
<b>Particle count (ea, 0.3 ~ 1µm/ft<sup>3</sup>)</b>	
Crumpling	< 10
Rubbing	< 10
Tearing	< 10
<b>Static build-up (v/cm<sup>2</sup>)</b>	
Before – Friction	< 20
After – Friction	< 50
Surface Resistivity (Ω/sq)	2 x 10 <sup>11</sup>
<b>Extractable ions (ppm)</b>	
Na <sup>+</sup>	2.3
C1+	< 0.5
NO <sup>8</sup>	< 0.04
K	< 0.02
