QT CHLORITE

5.25% Sodium Hypochlorite Solution

QT Chlorite is a 5.25% Sodium Hypochlorite solution manufactured using USP water for injection (WFI). QT Chlorite is specifically formulated for residue removal and the cleaning of hard non-porous surfaces in clean rooms or other critical environments including, floors, walls equipment, carts and tables. Bottles are filled and sealed aseptically in an ISO class 5 environment.

Each bottle is lot number and expiry date coded for complete traceability and straightforward record keeping. Bottles come fully assembled with a non-venting, ergonomic trigger sprayer with mist. The closed system (Bag in a Bottle) spray assembly maintains sterility throughout the products use. All sterile product is individually double-bagged in heat sealed poly bags and packaged in cases with individually sealed double case liners.
